# WE NEED CHANGE MORE URGENTLY TODAY THAN EVER BEFORE

The threats of **MILITARISM**, **CLIMATE CHAOS** and the **DESTRUCTION OF JOBS BY AUTOMATION** can all be met if we **TAKE THE STEERING WHEEL** and start driving changes forward ourselves

## CELEBRATE THE 40TH ANNIVERSARY OF THE LUCAS PLAN!

The Lucas Plan was the pioneering effort by workers at the arms company Lucas Aerospace to fight job losses by proposing alternative, socially useful applications of the company's technology and their own skills.

It's now more important than ever to build on these achievements and create new plans for a socially just transition to a sustainable society. Creating the Lucas Plans of the future could be the best way to make sure we still have one.

- \* Hear first-hand stories of successes and challenges - from the shop stewards who played key roles in the original Lucas Plan
- \* Discuss the way forward with leading figures in the trade union, left, peace and environment movements
- \* Take part in workshops to tackle issues that are close to you - from local community plans, to union action on industrial conversion and much more
